Limonta Sport Synthetic Turf

A new level in performance.

Greenplay Australia can transform your environment by providing you with the complete synthetic turf service. We do everything – consult, design, supply and install. We also provide a whole range of landscaping services, from paving to putting in swimming pools. Greenplay Australia is synonymous with quality and client satisfaction. The reason for this is simple – we know what we’re doing, and we use Limonta Sport synthetic turf – recognised throughout the sporting world as the premium performance surface. It also exceeds our tough Environmental Standard ISO 14001. In everything we do – from sports grounds and playgrounds to back gardens and rooftop gardens – Greenplay Australia offers you a new level in performance.

PRODUCTS AND SERVICES:

In many parts of Australia, having lush green lawn all year round is becoming more and more difficult. Lack of rainfall and water restrictions have had a severe impact. That’s why there is a growing trend towards artificial lawn, and that’s why we have the Limonta Sport Deluxe range. Now you can have a maintenance-free, lush green lawn that looks great all year round. The benefits are hard to ignore:

- **Very realistic appearance** – you need to touch it to make sure it isn’t real.
- **Save money** – reduce your watering and sell the mower.
- **Very safe** – non abrasive, forgiving surface.
- **Keeps looking good** – very durable and UV resistant (so it won’t fade)

The Deluxe range is available in three different grades to give you flexibility in use and appearance:

Deluxe Max

The Deluxe Max has unlimited applications. Its two-tone blades, matt finish, and exclusive S-shaped blades create an unbelievably natural look and feel.

Deluxe Tuscany

The Deluxe Tuscany is ideal for roof tops, terraces and pool areas. It’s a high-density combination of straight and curled yarn that requires no infill, and is available in four shades of green.

Deluxe Curl

Deluxe Curl is the ‘Aussie Summer Lawn’. Created from the exclusive S-shaped yarn, a small amount of brown is mixed with the green giving a more muted, native appearance.

Deluxe Adelaide

Deluxe Adelaide is a cost-effective, durable synthetic surface. There is a mix of green and brown fibres for a more native appearance and is suitable for all applications.

It's all about image.

Limonta Sport can transform your outdoor area into a beautifully integrated part of your home and lifestyle. Just as Limonta Sport can work wonders with people's homes, the same can be achieved with commercial property. The Deluxe Range from Limonta Sport can be applied to a wide variety of commercial applications. For example:

Streetscapes – lift the presence of any new land development.

Kindergartens – create a magical environment that is very safe.

Rooftop Gardens – create a relaxed atmosphere that everyone enjoys.

Playgrounds and Reserves – design fantastic public areas that fulfil councils' compliance on safety and quality.

Entrance Foyers – make a green statement about your business.

And, of course, Limonta Sport is the eco-friendly choice in synthetic turf.

Our star player.

Created from the finest quality, eco-friendly materials developed in The Netherlands, and manufactured in Italy, the pedigree of Limonta Sport synthetic turf is unsurpassed. Since 1981, Limonta Sport has been producing cutting-edge synthetic turf for all kinds of outdoor and indoor sports. Today, you'll find their products in over 17,000 clubs across 70 countries, including soccer powerhouse, AC Milan. Limonta Sport is approved by all governing bodies, and is one of only five FIFA preferred producers.

It also exceeds our tough Environmental Standard ISO 14001. Limonta Sport has extraordinary permeability, stays cool, is UV resistant, and chosen throughout the world for its:

- Durability and Resilience
- Realistic Appearance
- Safety (Flexible, non-abrasive surface)
- Outstanding performance in all kinds of weather

All Limonta Sport products are tested for shock absorption, deformation, traction, and ball roll. The company also has its own research and development laboratory where products are constantly monitored, and looked to be improved upon.
